## CLEANING AND MAINTENANCE

Ordinary cleaning: gently remove upholstery dust with a soft brush. Use a mild solution of neutral soap and water to be applied gently with a dampened cloth. Dry and revive the fabric by brushing again.

Periodically soften the leather by using a cloth dampened with water and neutral soap.

To avoid permanent stains, the lighters colours of the fabric should not be brought into contact with textiles and clothes coloured with unfixed dyes. We cannot guarantee the ability to remove unknown dyes from light coloured product.

## IMPORTANT INFORMATION

Upholsteries might present slight differences in tonality compared to the samples.

Moving, to improve the technical and qualitative characteristics of production, reserves the right at any time to modify entirely or partially the content of the present catalogue even without notice.
